To Whom it may concern,

I have been riding Motorcycles for 45 years. I am the Founder of the "Ride Free Brotherhood" dedicated to teaching and passing on my years of riding experience and those other "Graybeards" who are a part of this Brotherhood. We are not a Club and wear no Backpatches.

I have also written a small Book called "The Bikers Book of Cool". It has Chapters Published on our Website covering many different kinds of riding, safety and interaction with the Public as well as other Organizations that Riders may encounter.

I am a dedicated Motorcycle Enthusiast with literally hundreds of thousands miles on the Roads of this Great Country of ours.

I would be honored to be interviewed by you and may be able to pass on comments that may help you in your research.

Should you send an E-Mail I will be happy to pass my Website Link along to you for your interest and verification.

Sincerely,

Charles F. Jesiek
